Year Group News

Each week we will be celebrating the learning taking place in different year groups.

This week we are celebrating the learning that took place Year 5 and a very special visit from the author Neal Zetter!

Year 5

This half term Year 5 are looking at Properties and Changes of Materials in Science. They have conducted an experiment demonstration an irreversible reaction with candles. Children have been able to conclude that fire can only be produced with the help of oxygen, heat and fuel as well as discovering carbon dioxide and water vapour are released when something is burning.

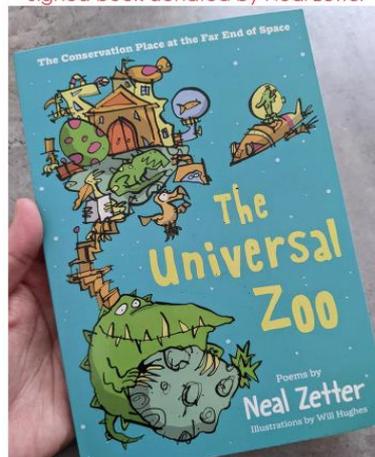

Neal Zetter

Year 3 and 5 were lucky enough to have a class reading and workshop session with Neal Zetter.

Neal has kindly donated a signed copy of his book for our raffle!

Summer Spectacular!

A Message from the Headteacher

We are so excited to be once again having the opportunity to bring our school community together, it has been a long time!

The summer spectacular is not only a wonderful opportunity for us to come together but also for us to continue raising money for our trip to Canvey Island.

So please do come along and join us for a day of fun and entertainment!

Also, if you are able to offer your help in anyway, please attend one of the PTA meetings to volunteer your support.
